security and law enforcement concerns that may be raised by the foreign ownership and requested that the Commission defer action on the application.<sup>5</sup> As requested, we deferred action on the Application.<sup>6</sup>

On May 10, 2021, the Committee notified the Commission that the Applicant had provided complete responses to initial questions posed by the Committee and that the Committee was conducting an initial 120-day review to assess whether grant of the Application would pose a risk to the national security or law enforcement interests of the United States.<sup>7</sup> On August 23, 2021, the National Telecommunications and Information Administration, on behalf of the Committee, filed a letter stating that the Committee has no recommendation at this time regarding the Application and no objection to the Commission granting it.<sup>8</sup>

The Bureau now has concluded its review and has determined that the application raises no public interest concerns warranting further consideration at this time, and hereby grants TRUSTID's application for direct access to numbering resources.
